

Command

#12

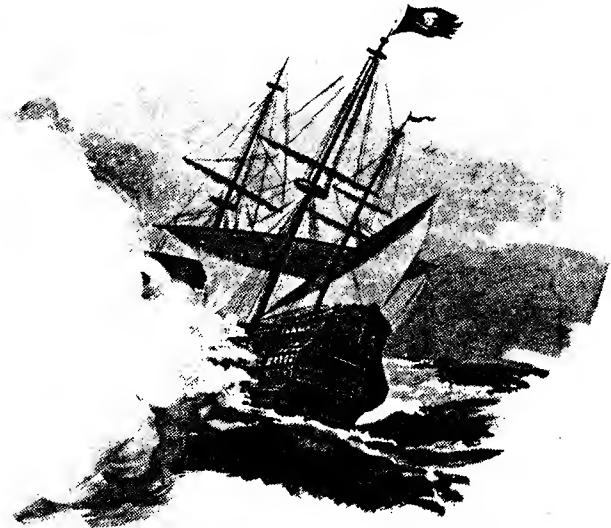

Effective immediately my address is:

16 So. Wilber St.
Belleville, N.J. 07109
(201) 759-2877

A word about phone calls; prior to moving here many of my phone calls were handled by non-wargamers when I was not at home. Consequently, some messages were fairly garbled and others were days late when (if) I received them. This situation no longer exists. If you call me and I am not home, my wife will understand your moves and messages and I will be sure to receive them intact.

The Nuclear Destruction games are running fairly smoothly and people really seem to be enjoying them. Bob Beardaly has offered to guest GM another section of it and I think I'm going to take him up on it. Gamefee will be \$1.00 plus postage and rules are available for 25¢ from Flying Buffalo, P.O. Box 1467, Scottsdale, AZ 85252.

You'll notice that I have changed the format for reporting Diplomacy moves. This is an attempt to squeeze a little more room out of these pages for press and articles. Press has been quite abundant lately and unfortunately I've had to postpone printing some of the longer pieces in order to squeeze in items of more general interest. I hope readability won't suffer too much. It becomes doubly important now for you to closely check the moves in your game and question anything that does not appear to be right. Also, it would aid me tremendously if you would submit your orders on one side of a page, labeled as to date, game date and either Day 16,

or Boardman number. Also, if you are submitting a stand-by move, please label it as such.

Finally, if you've written me in the past three weeks or so don't despair; I'll answer your letter within the next week.

LETTERS:

Dear Dennis,

I'm writing in response to your comments in Command #10, about the IDAEC and my zine the Tetracuspid.

First of all let me explain the IDAEC to you. It does evaluate zines using a standard that Big Brother may or may not have passed. If it would have passed using the current standards then maybe they should be changed, but the way to change them is to write to the JDAEC and not to write sweeping editorials about it.

Of the four zines you mentioned only two, yours and Impassable would be rated acceptable. Erewhon hasn't come out in months and admittedly the Tetracuspid is more than three days late on the average.

The IDAEC was formed by an act of the JDA. It consists of a group of people, one for each of several regions who do the evaluations and one to head it all. Their qualifications are that they care enough to do something for this hobby. The list is compiled for anyone interested.

If you're really interested in the IDAEC you should write to the head of the IDAEC, Roger Oliver, PO Box 452, Denville, NJ 07834, for more information.

As to the Tetracuspid, I do not consider myself to be in the same league as people like John Boyer. I

and a small amount of time. I have to write four or five stories a week between them. I work between them, one thirty hours a week, am room assignments chairman for my dorm, carry a full load of classes, and do have some social life even if its just passing the bull with friends. I could probably publish articles if people would send them to me. Finally based on one month between issues, the Tetracuspid has been late only three times in over one year of publication.

Yours in Dippy,
Richard Kovalcik, Jr.

The following is part of an editorial that appeared in Saint George and the Dragon, issue #9, Oct. 10, 1976. TGAEG is written and published by Robert Sergeant, 3242 Lupine Dr., Indianapolis, IN 46224

Then there is the TGAEG. This organization irritates me almost more than I can say. This group purports to review zines that have requested such review and rates them on acceptability of GM and sex. They do NOT tell you which zines are unacceptable. They list only those zines which are and by implication the rest are not. There is no way of distinguishing between an acceptable zine which has not received evaluation and an unacceptable one. The idea seems to be that members will come to ask for evaluation, just to avoid the impression that they are unacceptable. This seems to smack of coercion to me. I have not requested rating of the zines, and I do not intend to do so. And the worst sin I have ever seen commit is rating as acceptable a zine which has not published an issue since late June. I don't find this acceptable and it leads me to question the judgement of the TGAEG on those zines with which I am not familiar.

this game; he feels the unfamiliar
mapboard and rules is making for
a poor game. I agree that this vari-
ant is very far from the best. If
anyone is willing to pick up the
Yellow position, we ~~can~~ continue.
Otherwise, I am calling for a vote
from the other players in the game
as to whether they ~~want~~ want to
continue or change to a better
variant. If we switch games, all
players in this game will be entered
free.

PRESS

(Blue Lake Medicine Lodge) United
Red Nations' Sub-Chief for Provisions
South End-of-North Bound-Buffalo
was today dismissed after his remarks
to "The ravings of a peyote-chewing
Chiracahua" led to near-mutinies
among Chiracahua Apaches' famed
Dog Soldiers. The deposed sub-
chief was given a one-way ride to
the Chiracahua territories in Arizona
and a special body-guard detachment
of twelve Dog Soldiers. It was
believed his successor will be the
legendary pale-face peyote priest
Thompson-Hunter, a resident of
newly reconquered Aspen village in
Colorado.

NDI PRESS

(London) Anyone interested in purchasing some slightly radioactive real estate, please contact Her Majesty's government. There is still no, repeat, no plan to devalue the pound at this time.

(Frozen Bay, Alaska) Nov. 2, 1976. Today President Ford drew a large "X" (in crayon) on House Bill No. 36-24-36, signing it into law. Also today, Jimmy Carter got drunk on Peanut wine and gave Plains, Ga. a day it will soon want to forget. These actions marked the end of the 1976 Presidential election campaign. It is now a certainty that neither man will be elected. The final tallies ~~mixxx~~ are not yet in, but it seems that for the next four years our government will be run by a coalition consisting of: Donald Duck, famous cartoon character; Rachel Welch, famous female character; and Dennis Agosta, an unknown from New Jersey with no character at all.

(Geneva) In a surprise move today, England did not devalue the pound. Instead, every other nation raised the value of their currency.

(Lisbon) Due to the poor condition of the local economy, the president made a plea for more foreign investment.

(Paris) It has come to this reporter's attention that Mad magazine is widely read throughout the world by both kings and presidents, priests and paupers, journalists and teackpots. Why so many?

(South Pole) The government of the South Pole wishes to point out that the report released by the Syrian government last month is faulty. We have reason to believe that Santa Claus is alive and well in Argentina.

(North Pole) In response to the declaration of war by the South Pole the North Pole is mobilizing its olifer army. Production of Christmas toys has been halted, and all factories are converting to tank and fighter bomber construction.

NDI PRESS

(Montreal) After months of civil war, Canada has emerged out of nowhere to become a major power. The Canadian govt announced first off that it wished to become an ally of Russia if feasible, and any other country that wished an alliance (Gifts such as missiles, cash or factories can help considerably).

(?) "Life liveth best in life, and doth not roam
To other realms if all be well
at home.
"Solid as ocean foam," quoth
ocean foam."

(Zurich) The Inter-European Society of Mushroom Fanciers announced that their annual convention will be held in Zurich this year. Although a large turnout is not expected, Ireland and Portugal have promised lavish displays.

(Washington, D.C.) The President announced today that recently learned the War in Vietnam is over. He indicated that the U.S., who have already formed a peace pact with several allies, has vowed to keep world peace at any price, even if it means war. When asked how long the world peace would last, the President replied, "At least for several generations; maybe even 6 or 7 years."

(Beruit) The war torn state of Lebanon was relieved to hear that foreign aid was soon to be received due to the numerous incidents of superpower intervention into the affairs of the Third World.

(Lisbon) Massive riots broke out sporadically throughout Portugal when it was announced that Portugal's destiny was to be controlled by a select group of nations.

(Newark) The United Nations of the Select met today to begin plans that would totally disregard the interests of the United Nations of the Minority (Majority). Secretary General Bagot refused to intervene against the Select claiming, "I'm only a moderator. Don't shoot at me."

London) The order is to be sent
September 20. Join the United Na-
tions. To you just send a diplo
to Pakistan. The first meeting
will be on March 2. The UNP
(United Nations Press) will be
sent to all members. At the meeting
all spy results will be given to
Pakistan and published in the
UNP. If you have an enemy, join and
we will kill him. But defense for
all members is required. Send
copies now so you will have a place
in the UN or contact Jaby Ziemian,
25 Buxtonwood, Cinnaminson, NJ 08077

(Madrid) The Premier is pleased to
announce the formation of the
International Alliance of Spanish
Speaking Peoples (IASSP). Member-
ship includes Spain, Mexico, Cuba,
Uruguay, Panama, Argentina, and
Guatemala. All other governments
are hereby warned to keep their
grubby paws to themselves.

(Sydney) This really wasn't my
fault. I really didn't want a war!
Ask anyone. They'll tell you.
Australia's always been a pacifist
country. It was the gangster. He
forced me into it. Somebody out
there help me! Please! He's holding
my wife and kids hostage! Anyone?

FALL 1902 due 12/3/76

(Rome) Reports continue to trickle back to Rome of a fierce pitched battle between the Legions of Rome and the Gypsies being fought on the outskirts of Budapest. Rumour has it that our troops were reinforced by Volunteers of a Cossack regiment on leave in Vienna, but no details are at this moment available as to the outcome of what appears to be the most savage encounter of the year long war.

(Rome) Fashion observers attending the Inter-European Spring Fashion Review held in Zurich report that the Zigeuner Look is going to be all the rage this year in the Spring. The Zigeuner Look features polka-dot shirts, high boots, a large bandanna over the hair, and a single gold earring. Leading fashion-plate of Germany, The King of Bavaria is the supposed author of the look, and is well known to be the first aristocrat in all of Europe to have his ear pierced.

(Rome) Pontifex MAXIMUS Silvano I has banned the Zigeuner Look from Rome, calling it "A tool of the Devil, and especially of the Gypsies. The Pontifex suggests that Roman women wear the same old togas one more year, as an economy measure in these economically troubled times. First Consul Pompous reportedly stated upon hearing of the Pontifical Ban, "I am greatly relieved. Now maybe I can balance the budget."

(Bologna) Doctors working at the Academy of Unnatural Sciences have released the startling news that a direct relationship exists between having one's ear pierced and the Gypsy madness. It is generally believed that the King of Austria had his ear pierced just before falling prey to Gypsy sorcery, and we all know what happened to him. Hopefully, this warning will not be too late for the rest of Europe and Asia.

(Berlin) The German Government demands the immediate de-militarization of Tyrolia. The continuation of the provocative adventurist policies of Italy can only have the gravest of consequences!

(Budapest) Today the King was elected unanimously to a second term as dictator of Austria. He cast the only vote for himself. After an inspiring inaugural address, in which he urged every Austrian to fight to the death against the invaders, the King fled to Switzerland, taking the entire gold reserve with him.

(Budapest) Faced with certain destruction, I could have either sat and been taken over by Russia and Italy, or I could have done something useful with my supply centers while I had the power. I have chosen to give as many of my supply centers as possible to Turkey. I did this for several reasons. First of all, I did not want Italy in particular to grab any more of my fine Austrian land; I wasn't too thrilled about giving it to Russia either. That left Turkey, who deserved it anyway for being a good ally. Russia won't last long, and then my

Turn 1b (combat, full sail adj)
and 2a (movement) due 12/3/76
note: we are playing basic rules
plus full sails and ammunition types;
all ships are loaded with roundshot
and start with battle sails up.

GAME REVIEW TOBRUK (AH) by Bob Beardsley

Tobruk is a simulation of individual tank/squad combat during the battle of Gazala, 1942. Why it isn't called Gazala is somewhat of a mystery to this writer because most of the scenarios feature that battle rather than Tobruk.

Tobruk is a combination board game/miniatures contest that has previously received mixed to bad mixed reviews since its publication in 1975. Even Avalon Hill's publicity and advertisements have been "low profile" on the game, as if the game is something of an embarrassment to the company. I can't understand why. It's a fine game chock full of good ideas.

The good ideas start with the conversion of the board game to a miniatures, and vice versa. Now, we board gamers can find out why miniatures gaming has become more and more popular every year.

Imagine the thrill you get when you maneuver your 15 Italian Sherman tanks against 3 lonely British Grant tanks in for the kill. Imagine the further thrill you'll get as you watch your Italian armor piercing shells bounce off the Grant's hulls all day long, as the Grant's 75 mm and 37 mm guns make garbage cans of your tanks.

There's more to the game than tank duels, although those are great fun in themselves. You have anti-tank guns, mortars, squads of infantry, mines, hedgehogs, anti-tank traps, dummy gun emplacements, etc., etc. Weapons are raged against each possible target (different CRT for each case!) and you'll soon discover each strength and weakness of every weapons system on the board.

You'll also learn about the different rates-of-fire of each weapon, about acquired sights and initial sights, about the importance of hit locations and other goodies. Sound complicated? That is one of the criticisms of the game, but I don't find that to be the case.

Tobruk's rules are written in a programmed instruction format. In other words, you read two pages and play a ~~single~~ scenario! The first scenario is a full-blown (pardon the pun) tank battle. Then you read two pages more and play an infantry scenario. After you've play the first nine scenarios you've learned all the rules. Written clearly and precisely, it's almost fun to learn the game. It's incredibly ~~more~~ simple than learning AH's Third Reich, and not much more difficult than Panzerblitz. By the way, Tobruk is nothing like Panzerblitz and the famous Panzerbush technique. Although movement is sequential, fire is done ~~after~~ movement one tank at a time, alternating sides. In other words, you fire one of yours, then I fire one of mine.

Another criticism of Tobruk is that the playing board is featureless. True enough, but I feel that isn't detrimental to the game. You can change the nature of the board with mines, hedgehogs, fortified positions if that is what you want. If you're looking for mountains, forests and rivers, forget it.

I'm often critical of the rules of dice rolls involved in certain resolution. There are plenty involved, but basically it only takes two rolls for each time you fire a shot. On the first roll you determine if you've hit your targets; on the second roll you find out where you've hit it. The second roll isn't necessary if you've missed the first roll. Generally speaking, each tank can fire two shots per turn with their initial fire. So, if you don't mind rolling dice, you won't have any complaint on this count.

The last criticism dealt with here is the excitement level of the game. Some say there isn't much, but I disagree again. In a recent multi-player contest (yes, you can play very effectively, with more than two people) involving this writer, your Command pubber, Dennis "the butcher" Agosta, and Rich "let's go for the lucky hit" Marcell, many huzzahs and cheers (and assorted noises) were heard everytime Rich and I scored a hit on Dennis. (Let it be recorded here that Dennis was extremely lucky in destroying 17 of our 21 tanks while only losing 4 of his.) No wonder we cheered when we hit one of his!

I highly recommend *Tobruk* to any gamers who enjoy tactical games like Wooden Soldier and Iron Men. I believe it is the best game to come out in 1973 (including Third Reich) so hope you'll find it to be as enjoyable.

BTW, note: If you already own *Tobruk*, check your British Hit Probability Table. If there is not a large black dot following the number 8144, your table has an error. Under the Pancer III H, a die roll of 12= R for Front, Flank, and Rear. Under (F) the R column, make the following additions: $W(1) = F(1) + F(2) + C2 = 10$; $R(1) = F(1) + F(2) + C2 = 5$; $R(2) = C2 = 22$; $R(3) = F(3) + F(4) + C2 = 10$; $R(4) = F(4) + F(5) + C2 = 5$.

1973 IV ANALYSTS

This game is rapidly becoming a must as far as a game goes; it can be purchased at a game store.

Now, here's how to . . . I stand by my position. I wrote Reinsel's quit, because here Charles Reinsel quit, because here Charles Reinsel quit, because here Charles Reinsel quit. I replaced Ralph Ragan because he was missing during as much as the month sending them in; it now appears that Len Lakofka has quit because I replaced Ragan (even though I told Len that Ralph wrote to me and asked to be replaced); it now appears that the problems that are preventing Charlie Spiegel from printing *Stat*, are also preventing him from playing postal Diplomacy. That's the situation going into Winter 1904.

Anyway, here are my thoughts on the tactics of the first few turns. I hope that the many novices who read these pages will get something worthwhile out of it. Reader response is strongly requested.

The players:

<u>England</u>	Len Lakofka
<u>France</u>	Bill Young
<u>Germany</u>	Walter Blank
<u>Italy</u>	Ralph Ragan
<u>Austria</u>	Edi Birsan
<u>Russia</u>	Rick Loomis
<u>Turkey</u>	Charles Reinsel

Spring 1901

ENG F Len-NoSea; F Edi-Near; A Liv-Yor.
 FRA F Bre-Mal; A Par-Pic; A Mar-Bur.
 GER F Kiel-Den; A Ber-Kiel; A Mun-Bur.
 ITA A Von-Pie; A Rom-Ita; A Gen-Sar.
 A Rose-H; F Nap-Tyrr.
 AUS A Via-Tri; F Tri-Alt; A Bud-Sar.
 AUS F St.P- Both; A Mos-St.P;
 A War-Ukr; F Sey-Pla-Sea.
 TUR A Con-Bul; A Sny-Arm; F Apke-BSe.

Turkey opens with an immediate attack on Russia which is further strengthened by A Moscow's move north. Turkey's move would had taken on added strength had he been able to form an alliance with Austria, but as the game progressed it became obvious that Turkey was working alone. This is not surprising since Mr. Reinsel's style of diplomatic negotiation can best be described as "do what I say or else!" Had Russia moved A Mos-Ukr and A War-Gal, his chances for survival would have been greatly improved. This is not to say that A Mos-Sar.P is a bad move in general; it's not. It is a very poor move if it's only defensive.

Turkey moving A Sicily to Sardinia
On the western front, Germany opens aggressively with F Kiel to Denmark. I would have preferred to move A Munich to Ruhr, but since France attempted to move to Burgundy these moves are just as strong. Italy's move to Piedmont (most likely at Edi Birsan's suggestion) is an early indication of France's problems to come. France cannot really expect to gain Belgium unless he allies with Germany. While England is usually in a position to support France into Belgium from the North Sea, Germany's A Munich to Ruhr can stop this most often the time.

Fall 1901

ENG F Norw-Nor; A Yor-Bel; F Nrt
C A Yor-Bel.
FRA A Pic-Bur; A Mar-S; A Pic-Bur;
F Matl-Spa(SU).
CER A Kiel-Hol; A Mun-Sil; F Danc.
GER Sue.
ITA A Pic-Mari; A Rom-Ven; F Tyrre-
Tun.
AUS F Alb-Ion; A Tri-Ser, A Ser-Gre
RUS A Ukr-Rum; F Sov-S; A Ukr-Rum;
Beth-Swe; A St-P-Fin.
TUR A Bul-Rum; A Arm-Sey; F Ank-Blz

Turkey's moves are obvious and quite devastating to the Russian. At this point Russia is quite cut off it. Austria takes good advantage by making an excellent move F Alb-Ion, getting the most out of his pieces. At this early stage, Austria is in the swing position usually occupied by Italy; Russia is weak, Turkey is committed to fighting Russia, and Italy is attacking France who is weaker than usual.

Germany's move east indicates he isn't worried about England, a point which France doesn't appear to notice. France's game is now totally dependant upon England, a dangerous situation.

Winter 1901

ENG F Ion; F Edi
FRA F Bre
CER A Ber; A Mun
ITA F Nap
AUS A Bul; A Tri
TUR F Cor

Germany's A Berlin to Vilseck forces Austria to build a Trieste counter. Then F Trieste which would have given him more options.

DEPTHEM OF THE GAMES PUBLICATIONS

prudly presents it's winter line of games.... for the din of wit...

CONTINENTAL DRIFT A strategy game of movement. Die-cut counters representing the greatest land masses of the world race (?) across a featureless blue mapboard. Scenarios include the sinking of Atlantis and the Ice Age. Sure cure for insomnia.

RED ANT/WHITE ANT Lightning warfare in you're own backyard! Optional rules for wandering people, berserk aardvarks, and Black Flag attacks. Basic game and campaign game ("The Picnic").

SECAUCUS Set in New Jersey's most fashionable garbage dump, this game pits one night watchman armed with a BB gun against an army of 100 hungry rats. Optional rules for dogs, rats, mosquitoes, and cockroaches. So realistic you can smell it! Recyclable.

WIZARDS and WYVENS All new Dungeons and Dragons supplement. New monsters include were-turkeys, were-parrows, were-chipmunks, were-mouseketeers, were-jellybeans, were-politicians, were-used-car-salesmen... Powerful new spells including the VD Special, The Aztec Two-Step Whammy, the I Love Lucy Rerun, the Presidential Debate.... Note: this game requires special spherical dice (234 of them) available from Scungilli Bros., 10 Abalone Way, Firenze, ~~ITALY~~ Italy.
